

INF2009F – 2023 Use Case Diagram

Exercise 5 (10 Marks)

Student Name: Alex Cristaudo

Student Number: CRSALE010

IMPORTANT NOTE:

- Copied or Plagiarised answers will get 0 and student will be referred to Elsje Scott or Ayanda Pekane for further action.
- Please upload your completed exercise on Vula by the 20th of March 2023 at 9am (9:00)

Please revisit the Khwela Womxn Case Study to remind you of the background and the current processes involved.

Draw a use case diagram for the Khwela Womxn online for the whole system consisting of the:

- a) Circle set-up, allocation, facilitation process - This must be done from the point when a womxn signs up for being part of the circle to the point where the moderator uploads a selfie for proof of impact.
- b) Training and creating - this must be done to enable the team member to sign up for training to be a moderator.
- c) Creating and sharing content on Alora (WhatsApp bot).

Identify all the use cases that will be necessary to **automate** the processes listed above.
